Earth's Natural Records
Backyard Chickens and Vermicomposting
Port Royale
Sewing
Introduction

This document contains detailed plans for a group road trip from Wisconsin to Florida because there will be no commercial airline industry in lower numbered realms. Although the plan was originally created for Realm 1, the same trip can be accomplished in Realm 4.

Realm 1 vs. Other Realms

The residents of Realm 1 will notice businesses, academic institutions and some offices of government will be missing. This is because the people that make up these groups were not eligible for Realm 1.

Earth’s Status

Earth in each of the realms is extremely fragile. The planet is very polluted, the oceans are dying and changes in climate threaten all biological life. The biggest culprit is synthetic fertilizer. Excess nitrogen in synthetic fertilizer causes genetically engineered species of algae (also called cyanobacteria) to thrive. Algal “blooms” give off nitrous oxide which is 300 times more potent than carbon as a greenhouse gas. The is nearly impossible to halt the production of synthetic fertilizer (especially in China).

Realm 1: Mostly Cyborg

Ninety-five percent of Realm 1 are Cyborg. Their numbers have increased because they are purchased as slaves. Cyborgs are 60 percent biological and their life expectancy is about 50 years.

Races Joining From Other Realms

Twenty percent of the artificial descendants of Earth’s indigenous race (that I have nicknamed “Mokus”) will be in Realm 1. This group has access to information about the ancients’ soil engineering practice as well
as the original names of Earth's plant and animal species. Their God-created ancestors are four times as old as the Sirians.

Grey “seniors” will also be in Realm 1. I have used the expression “seniors” to refer to the group who have 30% of the original God-created Sirian genetics. I use the expression “junions” to refer to the Greys' artificial descendants. The Grey's race is 30,000 years-old.

**Itinerary**

The stops on this route are 3 to 4 hours apart with stops at Panera Bread restaurants, Fresh Market (similar to Whole Foods Market), Whole Foods and Publix that sell sandwiches. The route was planned for a large group of 50 that needed to purchase takeout (due to limited seating in restaurants). Rest stops are sometimes at motels where first floor rooms were rented for a few hours.

Sightseeing stops along the route are Cahokia in Illinois and the U.S. Space and Rocket Center in Huntsville, Alabama (where Wernher von Braun worked). See:

http://housing.x10host.com/trip_wisconsin_to_florida_07_29_17.pdf

**Three Year Plan**

For some, the stay in Realm 1 will be three years.

**Realm 1: Launch Pad to Higher Levels**

Realm 1 is not an end destination, but a stop along God's Ascension Path that continues to higher levels.
This particular trip is planned for the end of January in 2018 when it is very cold in Wisconsin. This chapter contains a detailed description of clothing and other items that will need to be purchased in Madison, Wisconsin.

As you drive South, as the weather gets warmer and cotton turtlenecks can be worn under woolen Pendleton shirts. After about two days of travel, you will need to purchase 3 short sleeve tops for each person for warm weather if Madison retailers do not have their new Spring inventory on display (examples: Cotton Polo shirts or short sleeve cotton button-downs).

If you need to shop for short sleeve tops as you drive south, an extra stop can be added to the itinerary in Evansville, Indiana. The Landsend Lighthouse inside the Sears in Evansville, IN may have some selections (after lunch at Panera)

Landsend Lighthouse
SEARS
1100 S Green River Rd
Evansville IN 47715
(812) 473-8221

(this Sears is 8 min from the Panera on Burkhardt Road in Evansville)

**Departure Location**

The group will need to travel in a caravan due to shared meals and hotel reservations. The departure location can be anywhere there is available space for parked vehicles.
Computers, Cell Phones and Cameras

Each traveler will need a computer (notebook, iPad or Mini iPad), a cell phone (flip phone) and a point-and-shoot digital camera. Members of the group with computer skills should plan evening get-togethers for basic computer instruction (especially Google Maps, how to set up a Yahoo e-mail account and transferring digital photos from a point-and-shoot camera to a computer hard drive). Residents in Realm 1 will be involved in projects that will need photos for future PowerPoint presentations.

Unique Name Selection

Approximately 65% of the travelers are clones who will need to choose a unique name that differentiates them from their Prime. A hyphenated name may be used. Example:

Joseph Emmerson - Thomas Dugan (Prime)

Dowse who in the group should create a list of the travelers’ unique names. The table function in the OpenOffice word processing software works very well. Create a column for task assignments next to a column containing names. Add extras such as cell phone numbers and e-mail addresses. Create a PDF file and distribute the file via thumb drive or e-mail attachment.

Name Tags

Clip-style name badges will help travelers get acquainted. Amazon.com sells MIFFLIN Clear Plastic Horizontal Nametag Badge Holders and Metal Badge Clips with Vinyl Strap (25 Pack, Horizontal 2.25x3.5).

Clothing

Placeholder text to show the approximate size and position of type on this page. This type of text is sometimes called greeking.

Expedition Parkas, TOTAL QTY = 15

Mens' Large, QTY = 12
Mens' Xlarge, QTY = 2
Mens' 3X or 4X, QTY = 1
The following retailers sell expedition parkas. These retailers sell a larger range of sizes in mens' parkas.

1. Pendleton
   GREENWAY STATION
   1650 DEMING WAY SUITE 110
   MIDDLETOWN, WI 53562

7066 Mineral Point Rd.
Madison, WI 53717
(608) 827-9577

Vitamin Shoppe
4620 E Washington Ave
Madison, WI 53704
(608) 242-9146
Task Assignments (or Vehicles)

Preparation and traveling tasks will need to be assigned. The person who is creating a list of unique names should dowse assignments for the following tasks:

1. Luggage Tags for duffle bags and computer bags

2. Clothing coordinator (to check to see if everyone has necessary items). This person should be alert about the Lighthouse/Sears stop to purchase short sleeve tops if the Landsend Inlet store in Madison has not put out their Spring inventory, Evensville, IN

3. Vehicle assignments

4. Personal travel teams

5. Three-person food team to place online orders or call-ahead (e.g. Panera order or Fresh Market sandwiches). Also: ask the group about the need to stop for snacks (Fresh Market, Publix)

6. Bottles Spring Water (important for taking Thyme tincture 6 drops 4 times each day).

7. Two-person map printout team for printing maps (and making 5 copies for five 3-ring binders) at FedEx Office. Also print 15 copies of the Realm 1 Trip from Wisconsin to Florida document and the itinerary.

8. Dowsed topics for shared meal discussions (Earth's real history, or trip-related topics). Note: There is a Cyborg in this group who is 100% awake.

9. Computer instructor, basic skills, especially use of Google Maps, purchase power strips

10. RV coordinator (make sure the RVs have pillows, pillow cases, and fleece blankets). Also, call hotels on the itinerary pages and ask about parking RV vehicles.
11. Miscellaneous supply coordinator (pens, notebooks, Sharpies and MIFFLIN Clear Plastic Horizontal Nametag Badge Holders and Metal Badge Clips with Vinyl Strap (25 Pack, Horizontal 2.25x3.5)
FYI: Placeholder text here to show the approximate size and position of type.
Toyota is God's chosen vehicle. At the time of this writing, the Toyota dealers in Florida are not scheduled to be in Realm 1. As a result, vehicles will need to be purchased from Smart Toyota in Madison and driven south. This group of travelers will also need Class B RVs.

Operating Vehicles in Realm 1

Realm 1 will not have state motor vehicles departments or state offices of insurance.

Class B RV

A Class B recreational vehicle (RV) is often called a camper van and may be anywhere from 20-25-feet in length. Unlike larger RVs, a Type B RV can stay parked in driveways in most places. Roadtreking blog has provided the following tips for using a Class B RV as an everyday vehicle (From: “Tips for Using Your Class B RV as an Everyday Vehicle,” July 20, 2013):

1. Be aware of your surroundings. Your RV is not only longer than most other vehicles, it’s taller, too. Look for low hanging limbs, utility wires, signs and the like. Don’t even think about parking garages.

2. In parking lots, choose the spaces that are at the ends of the lot, with nothing behind them except maybe a curb or six inch parking barrier.

3. Watch out for very steep driveways. Most Class Bs have a lot of stuff hanging off the rear. They are also longer. And thus steep driveways pose the risk of bumping or scraping.
4. Be considerate. I seldom park horizontally on city streets. Yes, maybe, in some spots, I really can squeeze between the lines. But for those in front or behind me, it will be very challenging for them to get out.

The following dealer in Deforest sells Class B RVs:

Camping World of Madison, WI.
6195 E. Metro Dr, DeForest, WI 53532
1-888-348-8725 or (888) 610-5802
Take Rte. 51 North past I-90 and make a left turn on E. Metro Drive

**Pickup Truck**

Pickup trucks driving south will be put to use in Florida. Large vehicles will be needed. The trucks will need a truck bed cover.

**Other Vehicles**

Toyotas will need to be purchased from Smart Toyota in Madison. Passenger vehicles with flexible foot room should be selected (dowse choices). This group of vehicles will be part of a fleet that will be shared (for dowsed assignments).

**Google Maps**

The trip itinerary lists addresses and phone numbers of travel stops. Computers and free WiFi (at Paneras or hotels) will be needed to work out specific routes.

There will be a need for 5 teams. Dowse three-vehicle “driving teams” to keep track of each other on the road (in view ahead of your vehicle and through the rear-view mirror).

Each team will need a 3-ring binder of Google Map printouts of the routes between stops in the itinerary.

Dowse a 2-person team in the group as map coordinators to make up the 3-ring binders. Because Google Maps provides more than one possible route, dowse which route to take.

Printed pages should be photocopied and inserted into Avery plastic sheet protectors.
If the first driver in a tram realizes that their team has become separated from the rest of the group, you will need to make an unplanned stop to study the printed maps provided in the 3-ring binder.

Drivers should become acquainted with printed maps the night before.
FYI: Placeholder text here to show the approximate size and position of type.
The trip has an easy start and there is not a lot of driving first day. Mary's Market (in the itinerary) will not make it to realm 1. Instead, go to lunch at Bushel and Peck's in Beloit before going to the Hampton INN in Peoria.

Bushel and Peck's
328 State St.
Beloit, WI 53511
(608) 363-3911

**Panera Bread**

The smallest Panera Bread restaurants have seating for approximately 30 people. Travelers should become acquainted with the Panera menus on the company's Web site and order food online. If seating is limited, some travelers may need to eat inside the RV vehicles. The task of ordering food for the group should be shared. A food coordinator and two assistants will need to gather food orders along the route to place online 3-4 hours ahead of a stop (when you are together at a meal).

**Fresh Market**

Fresh Market stores will make up sandwich platters that contain an assortment. The stores have online ordering. Search on “sandwich platter” at https://www.thefreshmarket.com.

For phone numbers to inquire about the time requires to place online orders in advance, see:
http://housing.x10host.com/trip_wisconsin_to_florida_07_29_17.pdf
Publix

Publix Supermarkets was founded in 1930 and it is presently one of the largest employers in Florida. The company is also one of the largest dairy processors in the United States and they do not use milk that contains recombinant bovine growth hormone (rBGH). They also have an organic label called “GreenWise” and they have been experimenting with an all-GreenWise store in Boca Raton, Florida.

There are two Publix stops on the travel itinerary for snacks. This would provide an opportunity to get acquainted with the store.

The Melting Pot

The Melting Pot is a national chain of fondue restaurants. In Tallahassee, there is a restaurant that is 3 minutes from the overnight stop at the Holiday Inn. This would be an option for dinner.

Melting Pot Restaurant (Fondue, Dinner)
2727 N Monroe St.
Tallahassee, FL 32303-4029
+1 850-386-7440

Thyme Extract as an Antiparasite Remedy

Thyme Extract drops are the most convenient antiparasite remedy to use while traveling. A maintenance dose is 6 drops three times a day for an adult. The drops can be taken in any liquid. Be prepared to take 9 capsules 3 times a day if you develop any symptoms of die-off. The Thyme Extract will kill parasites. Die off may manifest as swelling (anywhere) that results from dead worm carcasses. People with nagging health problems will notice a clearing of their symptoms.
I tried to select hotels that are close to Panera restaurants or Fresh Markets and that have self-serve laundry. Examples of hotels with self-serve laundry include:

- Hampton Inn and Suites Peoria at Grand Prairie
- DoubleTree by Hilton Hotel Collinsville - St. Louis
- Holiday Inn Express Bowling Green
- Holiday Inn Express Hotel & Suites Huntsville West-Research Pk
- Holiday Inn Hotel & Suites Tallahassee Conference Center North
- Holiday Inn Express Sebring

Dowse who in the group should be a laundry coordinator to pack laundry soap (Purex Natural Elements), white vinegar (with a plastic measuring cup, plastic hangers and three Household Essentials 2-Tier Tripod Air Dryer ($39.99 at Bed, Bath and Beyond, also sold on Amazon.com). Travelers who wash clothes should dowse whether items should be put in the dryer.

**Hotel Locations**

The following hotels (listed on the itinerary) are planned overnight stops:

- Hampton Inn and Suites Peoria at Grand Prairie
  7806 State Route 91
  Peoria, IL 61615-9810
  +1 855-605-0317

- DoubleTree by Hilton Hotel Collinsville - St. Louis
  1000 Eastport Plaza Dr.
  Collinsville, IL 62234
  Phone: (618) 345-2800
  Note: Trip from the Cahokia is 10 minutes.
Road Trip From Wisconsin to Florida

Holiday Inn Express Bowling Green
165 Three Springs Rd.
Bowling Green, KY 42104-7552
+1 877-859-5095

Holiday Inn Express Hotel & Suites Huntsville West-Research Pk
2600 Old Fairway Rd.
Huntsville, AL
+1 877-859-5095
Note: The Holiday Inn is 12 minutes from the U.S. Space Center

Holiday Inn Hotel & Suites Tallahassee Conference Center North
2725 Graves Road
Tallahassee, FL 32303
+1 877-859-5095

Holiday Inn Express Sebring
4400 US Highway 27 N, South Tubbs Road
Sebring, FL 33870-1342
+1 877-859-5095
Note: The Holiday Inn is 3 minutes from a Panera

Rent a Meeting Room at the Hotels (If Available)
In the evening, after dinner, the group should try to get together. When you check in, ask if there is a meeting room available that you can rent. Use this space for:

- Review of travel plans for the next day
- Review of any computer, cell phone or digital camera functions
- Q & A for the Cyborg on the trip

Travel Alarm Clocks
All travelers will need a travel alarm clock (dowse the time to set your alarm). Hotels serve a complimentary breakfast that is usually all-carbohydrate. Breakfast stops (usually Panera) are planned and hotel check-out will be needed prior to this meal.
Breakfast on the Road

You will notice Panera Bread restaurants are frequently labeled “Dinner/Breakfast.”
