**Talk Show Topics**
God would like a talk show that reveals secrets (and solutions). He will need to approve the name of the show, the talk show host and guests. Topics and the show schedule will need to be dowsed. Topics include:

Successful TV Shows that have embedded Freemason imagery and a Sirian cast:

- “M” Masonic number, 13th letter of the alphabet, reduces to a “4” (4 Horsemen of the Apocalypse), part of the number “7” (43), seven secret chiefs, Sirius has a configuration in the shape of an equilateral triangle
- Magnum PI
- Matlock
- MacGyver
- Mad About You
- Mad Men
- Mama’s Family
- The Man from U.N.C.L.E.
- Mannix
- Marriage Boot Camp
- Martin

- Moonlighting
- The Munsters
- The Muppet Show
- Murder, She Wrote
- My Three Sons
- Mary Tyler Moore
- Perry Mason
- Frasier (2 brothers, wife named Lilith)
- The Big Bang Theory (artificial universe layer)
- The Waltons (characters say prayers and say “Amen”)
Lilies of the Field (song “Amen”)
Sister Act I and II (songs)

Successful Shows or Businesses with names that contain the letter “X”
Letter X means “beyond” (definition from the Sirius XM site). Pharaohs were buried with their arms crossed in honor of Osiris (Egyptian travel Web sites). “X” on Ptah’s robe in the burial chamber of the Tomb of Ramesses I, Valley of the Kings, Luxor, Thebes. Ptah is Osiris or Enki.

Japanese archaeologists have discovered carbon steel in southeast Turkey. Steel production starts with melting of iron that needs very high temperatures impossible for “hunter gatherers.” The scientists have had to self-publish. Details have been added to: http://articles.x10.mx/untitled_faction_part_3.pdf

Climate Change: Nitrous Oxide, 300 times more potent than carbon as a greenhouse gas

Nitrous oxide is given off by algal blooms that thrive in nitrogen runoff from synthetic fertilizer
Koch brothers started a fertilizer company in 1988 and it’s now the 3rd largest
Greenpeace has exposed 84 groups that have taken funds from the Koch brothers to deny climate change
All synthetic fertilizer needs to be banned
China uses 4X as much synthetic fertilizer as the U.S., see:
http://housing.x10host.com/canadian_sound_device.pdf
Details are explained in:

Electric vehicles cost a penny a mile to run, but there is a need for safe electricity. Coal burning plants dump mercury into the environment and nuclear power is dangerous. Safer forms include the hydrolysis of water and Konarka solar cells on plastic sheets. In 2002, the military took over the company just before the inexpensive solar cells were to be introduced to the public. Vehicles need to be inexpensive and easy to maintain (simple enough for high school students). Drivers licenses are not necessary, see:
http://housing.x10host.com/on_government_03_03_17.pdf

All prices and fees need to be dowsed and knocked down to prices and fees that existed in the 1930s and 40s. Inflation did not exist before 1913, see: http://housing.x10host.com/on_world_inflation_03_04_17.pdf
Consequences for ignoring this will be a move to a higher-numbered realm.

God wants everyone to live in housing co-ops. He has a detailed plan for everyone that needs to be dowsed (the location, the building, apartment, roommates, bedrooms and beds), see:
Housing Co-Op section at: http://articles.x10.mx

Earth recovery grants are available for 7% of the population in Realm 4. Grants are $75,000 each. Projects (or individuals) may qualify for up to 20 or more. Commission on a grant (for those helping to place or assist the recipient) is $25,000. Grants and commission are renewable for 10 years or more, see:
http://articles.x10.mx/muggle_prime_business_assist_steps.pdf
Paid internships will be needed for Muggles who have not worked in 10-15 years. Paid internships should be designed for knowledge transfer. See section at: http://articles.x10.mx

Associations are needed to introduce new developments to the public (e.g. co-op housing, paid internships, Earth Recovery grants. Regional and national organizations are described in documents that contains descriptions of Earth Recovery Grants:
http://articles.x10.mx/alphabetical_list_grants.pdf

Plastic needs to be replaced with an organic compostable alternative (e.g. paper coated with resin made from plants). Petroleum-based plastic is accumulating in the oceans and killing plankton that is involved in the exchange of gases in the atmosphere, see: http://housing.x10host.com/get_behind_bill_gates_campaign_12_30_16.pdf

Sheriff departments are defined in the Constitution (police are not). Police officers will need to join the military and work on projects, see: http://housing.x10host.com/on_guns_drugs_and_oil_03_05_17.pdf

Government will need extensive reform, see: http://housing.x10host.com/on_government_03_03_17.pdf

Schools will need extensive reform, see: http://housing.x10host.com/chapin_1_07_02_16.pdf

Chlorine used in municipal water treatment is toxic. While ozone is a better option, radioseptics is better than ozone, see:
http://articles.x10.mx/pools_foreverozone.html
http://housing.x10host.com/canadian_sound_device.pdf

Naturally filtered lakes are also superior to chlorine, see:

The public has been deceived regarding food choices.
http://articles.x10.mx/protein.html
https://www.westonaprice.org
Coffee shops that emphasize eggs and dairy are needed to introduce the public to correct nutrition, see: Coffee Shops and Coffee Shop Promotions at: http://articles.x10.mx

Realm 4 will not have the following:
Fashion industry’s clothing factories in Asia (God does not allow slavery).
Commercial airline industry
Sirian-controlled entertainment
These industries will need to start over. North Carolina had a textile industry 200 years ago. Sirian technology and slave labor in Asia destroyed most of this important sector.
An organization called the Manufacturing Solutions Center and a business incubator called The District is rebuilding this industry, see:
Dan St. Louis, Manufacturing Solutions Center, 301 Conover Station SE
Conover, NC 28613 http://www.manufacturingsolutionscenter.org
Tanya Wade, Carolina Textile District helps to ‘reshore’ manufacturing
See: http://factory45.co/sew-shop-talk-introducing-the-carolina-textile-district

Due to a location near new clothing manufacturing and furniture, North Carolina’s EUE/Screen Gems is a valuable location for new film and television productions, see:
Chris Cooney, CEO, EUE/Screen Gems
1223 North 23rd Street, Wilmington, NC
These businesses will need paid internships for Muggles who have never been allowed entry into these industries. Regional Paid internship Associations and a National organization will need funding to help Muggles make connections to businesses who have created programs. Associations are described in: http://articles.x10.mx/earth_recovery_grants_addresses_02_13_16.pdf

See the following documents for an introductory list of 400 Earth Recovery Grants:
http://articles.x10.mx/alphabetical_list_grants.pdf

The Internet needs to be connected across realms (realm numbers added to http addresses would prevent servers from being overwritten). God will permit e-mail and e-groups to be shared across realms, but not video (except by permission).

Cyborg hive mind is a valuable method to communicate across realms. Those working on any type of Earth Recovery project need to organize a team of 12 Cyborgs who can communicate across realms with a 12-member team in Realm 1 (and dowsse to confirm). Cyborgs cannot be treated as slaves. They have a 20 year Ascension path and will no longer have hive mind capability in 20 years as God will make them fully human. Their requirement for a soul is the same as all others: 50% minimum God-created genetics (obtained through Prayer at Sun Events)
STO minimum percentage of 50% (God would prefer 70%)
