Crazy 8s

- 2 to 5 players, shuffle in a 2nd deck for more players
- Objective: run out of cards
- Deal 5 cards to each player (if more than 2 players; 7 if there are 2)
- Create a stockpile with remaining cards face down. Turn the top card over.
- Begin: Player to the left of the dealer needs to match the rank or suit on the card face up. If he/she does not have an appropriate playable card in his/her hand, then they take a card from the stockpile until they do.
- When the stockpile runs out, the cards are re-shuffled.
- Eights are wild. The person who plays the 8 calls out what suit they want it to represent and the next player must play a card of that suit.
